

MOHAMED HUSAM MOHAMED DARWISH

CYBERSECURITY ENTHUSIAST

Arad,Bahrain | +97338236611 | mohamedhusam2003@gmail.com

SUMMARY

I am a Senior cybersecurity student in at University of Bahrain. I am also enrolled in Reboot Coding Institute to enhance my practical experience. I am passionate about cybersecurity, with a strong interest in ethical hacking, penetration testing, protecting systems, and managing risks. My educational journey combines academic knowledge and real-world skills, driven by a commitment to continuous growth in the ever-evolving world of cybersecurity.

PROJECTS

- **Real-Time News Aggregation System:** Built a client-server news platform in Python using sockets and APIs, supporting real-time data retrieval, filtering, and secure communication with SSL.
 - **Artist Events Dashboard:** Developed a web-based music information platform using Go, integrating APIs and client-server architecture to display artist data, events, and interactive visualizations.
 - **Real-time forum:** Developed a real-time forum platform using Go, JavaScript, SQLite, and WebSockets, enabling user authentication, content interaction, and live messaging in a secure single-page application.
 - **Ant Colony Pathfinding Simulator:** Developed an ant colony pathfinding simulator in Go that parses structured map data, validates complex graph inputs, and computes the fastest routes to move multiple ants from start to end with optimal turn-based path selection.
 - **Browser-Based Arcade Game Engine:** Developed a browser-based arcade game engine using JavaScript, HTML, and the DOM, implementing smooth keyboard controls, pause and restart functionality, score tracking, and high-performance animations optimized to maintain 60 FPS without using canvas or external frameworks.
-

SKILLS

- **Programming Languages:**
Java, Go, Python, JavaScript
 - **Web Development:**
HTML, CSS, DOM Manipulation, Single Page Applications (SPA), RESTful APIs
 - **Databases:**
SQLite, SQL (CRUD operations, basic design)
 - **Tools & Platforms:**
VS Code, Git, Docker (basic),
 - **Concepts & Architecture:**
Client-Server Architecture, API Integration, Real-Time Systems, Authentication & Sessions, Data Structures & Algorithms, Object-Oriented Programming (OOP)
-

EDUCATION

Bachelor of science in Cybersecurity , University of Bahrain

- Expected to Graduate: June , 2026

Reboot coding institute

- Expected to Graduate: April , 2027

High School : Al Hidayah Al khalifiya , Science and Math

- Graduated: May,2022
-

PROFESSIONAL CERTIFICATES

AWS CLOUD PRACTITIONER (2025)

CURRENTLY PUSRUING:

- AWS SOLUTION ARCHITECT
 - ELEARNSECURITY JUNIOR PENETRATION TESTER (EJPTV2
-

EXPERIENCE

Hub Adminstrator

WORKED AS A HUB ADMINISTRATOR AT D11 GAMING HUB IN DANA MALL, SUPPORTING DAILY HUB OPERATIONS, CUSTOMER SERVICE, GAMING STATION MANAGEMENT, BOOKINGS, AND BASIC TECHNICAL TROUBLESHOOTING IN A FAST-PACED ESPORTS ENVIRONMENT.

VOLUNTEERING

Bahrain Asian Youth Games 2025

VOLUNTEERED AS PART OF THE IT TEAM AT THE ASIAN YOUTH GAMES 2025, MANAGING TECHNICAL SUPPORT, SYSTEM MONITORING, AND ISSUE RESOLUTION TO ENSURE UNINTERRUPTED IT OPERATIONS ACROSS MULTIPLE VENUES DURING A HIGH-PROFILE INTERNATIONAL EVENT

Arab International Cybersecurity Conference & Exhibition 2025 (AICS)

VOLUNTEERED WITH THE UNIVERSITY OF BAHRAIN ORGANIZING TEAM AT AICS 2025 IN EXHIBITION WORLD BAHRAIN, SUPPORTING THE ORGANIZATION OF A CYBERSECURITY CTF COMPETITION AND CYBERSECURITY AWARENESS SESSIONS WHILE ASSISTING PARTICIPANTS AND ENSURING SMOOTH EVENT COORDINATION.

First Cyber Security Youth Forum

VOLUNTEERED AS PART OF THE ORGANIZING TEAM FOR THE FIRST YOUTH CYBERSECURITY FORUM, A COLLABORATION BETWEEN THE UNIVERSITY OF BAHRAIN AND THE NASSER CENTRE FOR SCIENCE AND TECHNOLOGY, SUPPORTING CYBERSECURITY WORKSHOPS FOR STUDENTS AND ASSISTING IN THE ORGANIZATION OF TWO CTF COMPETITIONS.
